Quality Policy Statement

Invincible Fire and Security Ltd categorises quality as a top priority and is fully committed to providing a high-quality service to its Clients by listening to and understanding their needs that enables us to provide a satisfactory service that fully meets their requirements. These quality aims are attained through adherence to a Business Management System which follows a process approach towards the management of work and supports the strategic direction of the Company.

The Business Management System has been formulated based upon the BS EN ISO9001:2015 and BS EN ISO14001:2015 standards that provides a framework for the setting of objectives, complying with statutory and regulatory requirements and continually improving the Business Management System. A comprehensive internal audit programme ensures the Business Management System is subject to auditing and review to verify its continued effectiveness in supporting the Company's strategic direction.

The commitment by the Managing Director and the active involvement and co-operation of all Employees, ensures the motivation to continually improve the efficiency and effectiveness of our services and product.

Mr. Roger Woods
Managing Director

23rd April 2018
